Candidates who delay their applications until a late date will do so at their own risk.

The number of appointments which will be announced for competition will not represent the total number of vacancies to be filled in India, as certain vacancies will be reserved in accordance with the pledge given by the Honourable the Home Member in the Council of State on the 2nd March 1925, and will be filled, if necessary, by nomination for the purpose of adjusting communal inequalities which may arise from the results of the competitive examination.

Special rules applicable to BURMAN candidates will be issued later. Burman candidates shall not compete at the competitive examination to be held under rule I in the year 1929.

Fort St George, June 11, 1929.

No. 55.—The following resolution of the Government of India is republished :—

FINANCE DEPARTMENT.

Simla, the 27th May 1929.

No. D./1407-A.—The Governor-General in Council has taken into consideration the Report of the Public Accounts Committee on the accounts for 1926-27 and desires to record his appreciation of the care, industry and ability with which the Committee, like their predecessors, have conducted their scrutiny. The report is the sixth of its kind and the magnitude of the task accomplished by the different Committees is apparent from the epitome which, following the English practice, has been compiled by the Auditor-General in India and is under issue.

2. *Paragraphs 5-7 and 10-11 of the Report.*—The Governor-General in Council shares the satisfaction which the Committee have expressed at the improved results commented upon in these paragraphs—particularly the reduction in the number of excesses over voted grants requiring to be regularised by the vote of the Legislative Assembly. The analysis, contained in paragraph 7, of the percentages of savings in voted grants on the one hand and in non-voted appropriations on the other, is of considerable interest and supports the conclusion indicated in the Resolution on the last Report of the Public Accounts Committee that there is no general tendency to over-estimate expenditure under voted heads. The amendment of the Indian Legislative Rules, referred to in paragraph 7 as impending, was made in January last. The purpose of the amendment is to enable token votes to be obtained in respect of expenditure on "new services not contemplated in the Budget" which can be met by reappropriation. The Committee have also referred to measures taken or about to be taken to improve the system and strengthen the machinery of estimating. The results actually achieved by these measures will doubtless receive careful attention from the Public Accounts Committee in future years.

3. *Paragraph 9 ibid.*—The Committee consider that every effort should be made to include all supplementary demands in the list placed before the Legislature Assembly in the ordinary course about the month of February and that demands which cannot be so included should be presented separately later on, before the close of the year, when a question of principle is involved. The first suggestion represents the practice ordinarily followed, and the Governor-General in Council agrees that it would be desirable to adopt the suggestion made as regards the presentation of belated demands. Steps will be taken accordingly, provided that on each occasion the programme of work in the Legislature permits.

4. *Paragraph 12 ibid.*—The Committee have brought together, in one place and in a convenient form, the principles which they consider should be followed in estimating, including some which, as they themselves state, were recommended and accepted in the past. The principles are unexceptionable: and, in particular, the Governor-General in Council agrees with the observations of the Committee as regards the dangers inherent in the system of over allotment. Judiciously used, the system leads to efficient expenditure: abuse of the system or negligence in its use leads to loss of financial control and may lead to serious financial embarrassment where the head of expenditure involved is one of magnitude.

5. *Paragraph 13 ibid.*—The Committee have reviewed the history of the proposal that the Assembly should be given an opportunity to discuss in general terms the Report of the Public Accounts Committee on which the excess grants are based and have suggested that the Government of India should reconsider the matter without waiting for the deliberations of the Statutory Commission—a suggestion which has since been reinforced by the opinion expressed by the Hon'ble the President of the Assembly on the 18th February 1929 on the occasion of the discussion of the excess grants for 1926-27. The Governor-General in Council is in sympathy with the object which the Committee have in view and the matter is already receiving further consideration. It is agreed that it would be advantageous to have in operation, as soon as possible, a manageable procedure for the discussion of the Committee's Reports which would command the assent of the Legislature as a whole and which would lead to useful practical results. But it is not easy to find the right solution of the problem; and it is relevant to observe that, even now, members of the Legislature have the means of bringing under general discussion any question of importance arising out of the Public Accounts Committee's Report.

6. *Paragraphs 17-18 ibid.*—The Committee have satisfied themselves that certain long outstanding controversies relating to the arrangements for the production of salt at Sambhar and Khewra may now be set at rest. The conclusion which has been reached after a careful examination of the latest evidence available is one from which the Governor-General in Council sees no reason to dissent. The one specific request made by the Committee has been met. The Central Board of Revenue have already taken the requisite action on the lines of the recommendation made in paragraph 10 of Mr. Pitkeathly's report on the Sambhar electrification scheme. In leaving the matter, the Committee have said that in regard to important schemes of development generally, careful attention should be paid by the authorities concerned, when the schemes are taken up, to their estimated effect upon the cost of production, having regard to any probable limitations that may exist upon the extent to which output can be usefully expanded. The Governor-General in Council desires to endorse these observations.

7. *Paragraphs 20-21 ibid.*—The Committee next refer to certain important questions raised in the past, the disposal of which is in various stages of progress. As regards internal check of Customs receipts, to which the Committee attach special importance, the position is that a measure of reform has since been inaugurated at Calcutta and Bombay and its extension to other ports will be considered in the light of the experience gained at these places. The Governor-General in Council trusts that it will be possible to come to a final decision on some of the other matters before the Public Accounts Committee next meet. It has been ascertained that they are receiving proper attention and that delay in disposal is not due to neglect of the Committee's recommendations.

8. *Paragraphs 22-23 ibid.*—The interpretation of the term "new service" appearing in rule 60 of the Indian Legislative Rules is a matter to which the Committee have devoted considerable attention. They accept the view of the Auditor-General that the application of the term to concrete cases could best be governed by the evolution of a body of case law. They recommend that, in placing cases before the Standing Finance Committees, the Government of India should state whether the expenditure is in respect of a new service and that, if audit holds a different view in particular cases, such cases should be brought to the notice of the Public Accounts Committee

through the Appropriation Accounts. The Governor-General in Council accepts the conclusions of the Committee both in regard to the general question and in regard to their interpretation in the specific cases cited by them.

9. *Paragraphs 26-27 ibid.*—The Committee have not dissented from the conclusion of the New Capital Committee that no loss or avoidable wastage was involved by the departure from contract which was allowed to occur in connexion with the supply of marble at New Delhi and agree that the terms of the contract were faulty. They have, however, taken the opportunity to enunciate certain general principles which should be observed in handling business contracts, these being supplementary to the principles set down in paragraph 13 of the Report of the Public Accounts Committee for 1925-26. Arising out of the advice which has been tendered on the subject at different times by the Public Accounts Committee, the preparation of a set of instructions relating to the making, etc., of contracts is already in hand and it is hoped to complete this in the course of the current financial year. Meanwhile the general principles which the Committee have outlined will be communicated to all Government departments for the present guidance of all executive authorities concerned with the making, enforcement, etc., of contracts.

10. *Paragraph 29 ibid.*—The Committee refer to a case in which the representative of an important business concern, with which the Posts and Telegraphs Department has large business transactions, had been allowed for some years the free use of the trunk telephone line between two important places as an act of courtesy. They consider that an extension of the system may easily lead to abuse and accordingly recommend that such concessions should be given in the future only by the Government of India, who should scrutinize the cases jealously and communicate their sanctions to audit. The Governor-General in Council agrees in these observations and is glad to note that, as the particular case mentioned, the concession was actually authorized by the Government of India, though the sanction given was not communicated to audit.

11. *Paragraphs 28-30 ibid.*—The Committee were informed that the formulation of general principles and procedure to regulate the enforcement of responsibility for losses was in hand and were apprised in some detail of the lines upon which Government proposed to proceed. It is expected that a full statement on the subject will be issued before the next meeting of the Public Accounts Committee, and in framing this, the further considerations which the Committee have emphasized will be borne in mind. It may be added that, in the meantime, it has been decided that the final authority to settle the question of disciplinary action in cases of financial loss occurring in the Military Department should be the Government of India. Further, in connexion with the embezzlements in Burma treasuries, the Government of Burma have since issued instructions of a more satisfactory and effectual character than had been anticipated at the earlier stages of the correspondence.

12. *Paragraph 31 ibid.*—In regard to the purchase and accommodation of stores, the Committee make certain observations regarding means by which economy may be secured and losses avoided. The Governor-General in Council concurs in these observations.

13. *Paragraphs 32—34 and 37, 71, 74 and 84 ibid.*—The Governor-General in Council accepts unreservedly the views of the Committee expressed in these paragraphs in condemnation of lax and irregular practices, their views as regards the need for forethought in administering the public expenditure, and as regards the importance of accurate estimating in the first instance and of maintaining subsequently a close watch on the progress of expenditure and the accumulation of further liabilities. It is expected that departments of the Government of India and authorities subordinate to them will deal with individual cases of irregularity which may come before them in the spirit which the observations of the Committee reflect. On the particular case of perfunctory signing of certificates which is referred to by the Committee in paragraph 34, it seems desirable to repeat what was said in paragraph 22 of the Resolution in the Finance Department, No. D-3543-A, dated the 5th January 1928: "It is imperative that every public officer should entertain the most scrupulous sense of his responsibility in respect of his signature on documents of financial importance, and that failure to do so should be regarded as a serious breach of duty". It is agreed further that some automatic arrangements should be introduced in the accounts offices generally which will help to diminish the possibility of expenditure being incurred under orders which have a limited currency, after the currency of those orders has expired. It is understood that the Auditor General has already taken action. The Railway Department and the Financial Adviser, Military Finance, are requested to issue such instructions as they may deem necessary on the subject.

14. *Paragraphs 41-42, 53, 55 and 88 ibid.*—The suggestion is accepted that wherever trading and profit and loss accounts appear in the Appropriation Accounts, they should be given for two successive years for purposes of comparison. It is agreed also that a statement showing, for a series of years, the quantity of salt produced and the cost of production at different sources, as also the balance sheet of the Northern India Salt Revenue Department prepared by the Director of Commercial Audit, should be incorporated in the Appropriation Accounts on the understanding that the preparation of the balance sheet by the auditor will not impose upon the departmental authorities any obligation to alter or add to the accounts which they keep at present.

15. *Paragraph 51 ibid.*—In view of the overstocking of quinine sulphate commented upon by the Committee, the contract with Messrs. Howard & Co. has not been renewed pending the examination of the whole question of quinine arrangements and policy in connexion with important recommendations made by the Agricultural Commission.

16. *Paragraph 55 ibid.*—It is certainly desirable that the number of detailed heads should be cut down wherever it is possible to do so without causing any appreciable inconvenience, and the Governor-General in Council will be glad if the Auditor-General and all accounting officers will lose no opportunity of impressing this *desideratum*, in a practical form, upon the administrative authorities whose co-operation will be necessary.

17. *Paragraph 89 ibid.*—The Committee desire that, in order to facilitate their work, the Appropriation Accounts and connected documents should in future be supplied to the members as they are ready and, further, that copies of any Administration Reports, which are likely to be useful to them in the course of their deliberations, should likewise be supplied. Arrangements will be made to comply with the Committee's requests. It will be convenient, however, if individual members of the Committee will intimate to the Finance Department from time to time the Administration Reports of which they desire to have copies.

18. The action taken by the Governor-General in Council on recommendations of the Committee not specifically referred to in this Resolution—especially on those contained in Section IV of the Report, will, in accordance with the usual practice, be communicated to the Committee at their next meeting.

(*G.O. Mis. No.* 2588, *L. & M.*).

No. 889.—The Board of Commissioners for Hindu Religious Endowments has brought to the notice of the Government that the temple of Sri Varadarajaperumal, Rajapuram, Karur taluk, Trichinopoly district, the average annual gross income of which is now below Rs. 250 and which is thus outside the scope of the Madras Hindu Religious Endowments Act, 1926 (Act II of 1927), owns 7 acres and 49 cents of wet lands, capable of yielding an annual income of Rs. 300 but that all these lands except that to an extent of 30 cents have been mortgaged by the garukkals of the temple. The Board considers that the income of the temple could be enhanced and its affairs placed on a satisfactory basis if suitable trustees are appointed to it and instructions issued to them for the recovery of the alienated lands. The Board accordingly has requested that all the provisions of the Hindu Religious Endowments Act, 1926 (Act II of 1927), except section 69 (1) relating to the levy of contributions by the Board may be extended to the temple in question. Before proceeding further in the matter, the Government desire to ascertain whether the garukkals of, or any worshippers at, this temple have any objection to urge against such extension. If no valid objection is received within a month from the date of publication of this notification in the *Trichinopoly District Gazette*, the Government will proceed to pass orders on the Board's proposals

The Kurnool District Temple Committee has accordingly recommended that the provisions of the Act be extended to the temple so that necessary steps may be taken in the matter. The Board has supported the recommendation and has requested that all the provisions of the Act except section 69 (1) relating to the levy of contributions by the Board may be extended to the temple. Before proceeding further, the Government desire to ascertain whether any worshipper at this temple has any objection to urge against such extension. If no objection is received by Government within a month from the date of the publication of this notification in the District Gazette, the Government will proceed to take action in the matter.

Applications for scholarships tenable in higher elementary standards and in secondary schools shall be submitted to the Inspectress of the circle where the institution in which the scholarship is tenable is situated, by the head or manager of the institution in which the pupil studied in 1928-29 through the head or manager of the institution in which she intends to study, and through the inspecting officer who inspects that institution.

All applications should be dated. Separate forms should be used for each grade of scholarship. If one form is not large enough, the list should be continued on another form.

3. All applications for scholarships should reach the Inspectress concerned before the 20th July 1929. Applications submitted after the prescribed date will not be considered.

4. Scholarships will be sanctioned by Inspectresses at their discretion and subject to the conditions, if any, which have been specified in this notification. Scholarships remaining unappropriated in one circle may be utilised for additional scholarships in other circles. The transfer of such scholarships from one circle to another will be made by the Director and Inspectresses will therefore furnish him, before the end of August next, with a statement showing the number of scholarships placed at their disposal, the number sanctioned by them under each head for the different classes of the community, such as Oriyas, Muhammadans, Moppillas, Adi-Dravidas, Adi-Andhras, other backward classes, Indian Christians, Brahmans, Non-Brahmans, etc., and the number available for transfer. Any scholarship vacated in the course of the period for which it is tenable may be awarded for the remaining period to an eligible applicant in the same year of study as the holder of the scholarship vacated: *No new scholarship can be awarded to a student in the middle of a course.*

5. The names of the selected candidates will be notified by Inspectresses in the District Gazette.

6. Heads of institutions may grant leave without diminution or loss of scholarship for a period not exceeding one month to scholars who are absent on account of severe sickness, but if the leave exceeds this period, no scholarship is to be granted for the excess period. The grant of such leave should be reported by the head of the institution to the Inspectress concerned. Casual leave without diminution or loss of scholarship may be granted for good and sufficient reasons for a period not exceeding fifteen days in the year, provided such leave does not immediately precede or succeed gazetted holidays. If a scholarship holder absents herself without good reason on the re-opening day after the vacation for the school the scholarship for the vacation is liable to be withheld under the orders of the sanctioning authority.

7. No person receiving a scholarship under this notification shall be permitted to hold any other scholarship provided wholly or partly by Government without the special sanction of the Director. Such sanction will be accorded only for very distinguished merit.

8. In cases where the order of merit cannot be ascertained, or where the number of eligible candidates is in excess of the number of scholarships

available, it is open to heads of institutions to hold a competitive examination in one or more subjects with a view to select the most deserving candidate.

9. All scholarships tenable under the above rules are liable to forfeiture for idleness, misconduct, irregularity in attendance, or failure to make due progress or to secure annual promotion.

10. A scholarship held in any class shall run from the beginning of the month in which the holder joins the class, and shall not continue to be drawn after she ceases to attend it. Scholarship amounts for the vacation months shall be drawn immediately after the final (annual, school, college or public) examination and disbursed to the scholarship-holders.

11. The scholarships are payable monthly and in advance.

12. The scholarships sanctioned may, on the scholarship-holder's promotion to the next higher class, be either renewed or increased at the rates given above, provided the scholarship-holder's progress and conduct have been satisfactory. Applications for renewed or increased scholarships shall be submitted in the prescribed form. The instructions referred to above regarding the supply of forms and the date and manner of submission of first applications shall apply equally to the submission of applications for renewed or increased scholarships.

13. A register of scholarships, as required under rule 52 of the Madras Educational Rules, and also the acquittance roll prescribed in the Director's Proceedings Dis. I. Admission of holders of Secondary School-Leaving Certificates to University Courses of Study in the academic year 1930-31 and subsequent years shall be made only in accordance with the following rules and directions.

II. Such holders only of completed Secondary School-Leaving Certificates may be admitted to the University Courses of Study, and registered as matriculates under Regulation 1 of Chapter XXXI as (a) had completed not less than fifteen years of age on the first day of the month in which the examination qualifying for such certificates is held, unless specially exempted from the operation of this age limit, and (b) have been declared eligible for such admission by the Syndicate.

III. A complete list of certificate holders declared eligible for admission to University courses of study will be published in the *Fort St George Gazette*, and a copy of this list will be furnished to each Principal of a Constituent or Affiliated College. A certificate-holder not included in one of these lists will not be entitled to registration as a matriculate under Regulation 1 of Chapter XXXI.

IV. In the case of certificates issued under the authority of the Government of Madras, those holders of certificates who qualify under the following rules will be included in the list of those declared eligible for admission to University Courses of Study :—

(1) Secondary School-Leaving Certificate holders shall be eligible for admission to University Courses of Study, who secure at the Public Examination (1) 40 marks in English, 40 marks in second language and 35 marks in Elementary Mathematics of Group A (except Vernacular Composition and Translation, in the case of school pupils, who are exempted by the Director of Public Instruction the study of this subject in Group A), and (2) 35 per cent of the marks in each of the two subjects selected under Group C, one of which shall be Algebra and Geometry, or Physics, or Chemistry, or Botany, or History of England and India, subject to the following proviso :—

The lists published annually in the *Fort St. George Gazette* will contain the names of all certificate-holders found to be eligible for admission to University Courses of Study in a Constituent or Affiliated College under the rules and directions issued from time to time. It is however, to be clearly understood that inclusion in the list confers on no certificate-holder the right of admission to any Constituent or Affiliated College. The Principals of Colleges are at perfect liberty to restrict admission to such applicants as they may select and are moreover required strictly to confine admission to such eligible certificate-holders as, judged by their certificates, may be expected to profit by the particular courses of study upon which they propose to enter in the college selected.
